

## On the Subject of Lolbit

*We're experiencing technical difficulties, please stand by.*

- When this needy activates, it will never deactivate.
- Lolbit will constantly try to invade the game, and his progress can be seen on the TV screens on the bomb. Whenever Lolbit has fully invaded the game, he will block a majority of the screen.
- Typing LOL whenever Lolbit can be seen (including on the screens), will reset Lolbit back to his original state.
